BILLING CODE 4410-01-M

[AAG/A Order No. 100-95]

Privacy Act of 1974; Modified System of Records

Pursuant to the Privacy Act of 1974 (5 U.S.C. 552a) and Office of Management and Budget Circular No. A-130, notice is given that the Department of Justice (DOJ), Federal Bureau of Investigation (FBI), is modifying the following system of records which was last published in the **Federal Register** on March 10, 1992 (57 FR 8479):

National Crime Information Center (NCIC), Justice/FBI-001

The NCIC is maintained for law enforcement purposes and provides a computerized data base for ready access by a criminal justice agency making an inquiry, and for prompt disclosure of responsive information in the system from other criminal justice agencies about crime and criminals. The FBI is modifying this system to add the names and identifying data of persons who are members of violent criminal gangs and terrorist organizations. This information will assist law enforcement in criminal investigations of these individuals and organizations, and in the protection of officers and others encountering these individuals. Changes related to this modification have been made throughout the system description.

In addition, the FBI is removing a reference to exemption from subsection (f) which it had inadvertently included in the prior publication of this system of records. However, a rule document which would include a reason for the exemption was never promulgated, and the DOJ/FBI is in compliance with this provision. Therefore, the erroneous reference to subsection (f) had no effect on the public, and the removal of any reference thereto constitutes a minor correction. Other minor changes have been made to improve and add clarity. Where possible, changes have been noted by italics for the convenience of the public.

Title 5 U.S.C. 552a(e) (4) and (11) provide that the public be given 30 days in which to comment on any new or intended uses of information in the system. While no new routine uses have been added, an opportunity to comment

is provided because the existing routine uses may affect the new categories of individuals. In addition, the Office of Management and Budget (OMB), which has oversight responsibilities under the Act, requires that OMB and the Congress be given 40 days in which to review major changes to the system.

Therefore, the public, OMB, and the Congress are invited to submit written comments to Patricia E. Neely, Staff Assistant, Systems Policy Staff, Information Resources Management, Department of Justice, Washington, DC 20530 (Room 850, WCTR Building). Comments from the public should be submitted May 22, 1995.

In accordance with Privacy Act requirements, the DOJ has provided a report on the modified system to the OMB and the Congress.

Dated: April 4, 1995.

Stephen R. Colgate,
Assistant Attorney General for
Administration.

PURPOSE:

The purpose for maintaining the NCIC system of record is to provide a computerized data base for ready access by a criminal justice agency making an inquiry and for prompt disclosure of information in the system from other criminal justice agencies about crimes and criminals. This information assists authorized agencies in criminal justice objectives, such as apprehending fugitives, locating missing persons, locating and returning stolen property, as well as in the protection of the law enforcement officers encountering the individuals described in the system.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Data in NCIC files is exchanged with and for the official use of authorized officials of the Federal Government, the States, cities, penal and other institutions, and certain foreign governments. The data is exchanged through NCIC lines to Federal criminal justice agencies, criminal justice agencies in the 50 States, the District of Columbia, Puerto Rico, U.S. Possessions and U.S. Territories. Additionally, data contained in the various "want files," i.e., the stolen vehicle file, stolen license plate file, stolen gun file, stolen article file, wanted person file, securities file, boat file, and missing person data may be accessed by the Royal Canadian Mounted Police. Criminal history data is disseminated to non-criminal justice agencies for use in connection with licensing for local/state employment or other uses, but only where such dissemination is authorized by Federal or state statutes and approved by the Attorney General of the United States.

Data in NCIC files, other than the information described in "CATEGORIES OF RECORDS IN THE SYSTEM: I, J, K, M, N, and O," is disseminated to (1) a nongovernmental agency subunit thereof which allocates a substantial part of its annual budget to the administration of criminal justice, whose regularly employed peace

officers have full police powers pursuant to state law and have complied with the minimum employment standards of governmentally employed police officers as specified by state statute; (2) a noncriminal justice governmental department of motor vehicle or driver's license registry established by a statute, which provides vehicles registration and driver record information to criminal justice agencies; (3) a governmental regional dispatch center, established by a state statute, resolution, ordinance or Executive order, which provides communications services to criminal justice agencies; and (4) the national Automobile Theft Bureau, a nongovernmental nonprofit agency which acts as a national clearinghouse for information on stolen vehicles and offers free assistance to law enforcement agencies concerning automobile thefts, identification and recovery of stolen vehicles.

Disclosures of information from this system, as described above, are for the purpose of providing information to authorized agencies to facilitate the apprehension of fugitives, the location of missing persons, the location and/or return of stolen property, or similar criminal justice objectives.

Information on missing children, missing adults who were reported missing while children, and unidentified living and deceased persons may be disclosed to the National Center for Missing and Exploited Children (NCMEC). The NCMEC is a nongovernmental, nonprofit, federally funded corporation, serving as a national resource and technical assistance clearinghouse focusing on missing and exploited children. Information is disclosed to NCMEC to assist it in its efforts to provide technical assistance and education to parents and local governments regarding the problems of missing and exploited children, and to operate a nationwide missing children hotline to permit members of the public to telephone the Center from anywhere in the United States with information about a missing child.

In addition, information may be released to the news media and the public pursuant to 28 CFR 50.2, unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy;

To a Member of Congress or staff acting upon the member's behalf whom the member or staff requests the information on behalf of and at the request of the individual who is the subject of the record; and,

To the National Archives and Records Administration and the General Services Administration in records management inspections conducted under the authority of 44 U.S.C. §§2904 and 2906.

SAFEGUARDS:

Data stored in the NCIC is documented criminal justice agency information and access to that data is restricted to duly authorized criminal justice agencies. The following security measures are the minimum to be adopted by all criminal justice agencies having access to the NCIC.

Interstate Identification Index (III) File. These measures are designed to prevent unauthorized access to the system data and/or unauthorized use of data obtained from the computerized file.

- 1. Computer Center. a. The criminal justice agency computer site must have adequate physical security to protect against any unauthorized personnel gaining access to the computer equipment or to any of the stored data.
- b. Since personnel at these computer centers can have access to data stored in the system, they must be screened thoroughly under the authority and supervision of an NCIC control terminal agency. (This authority and supervision may be delegated to responsible criminal justice agency personnel in the case of a satellite computer center being serviced through a state control terminal agency.) This screening will also apply to non-criminal justice maintenance or technical personnel.
- c. All visitors to these computer centers must be accompanied by staff personnel at all

times. d. Computers having access to the NCIC must have the proper computer instructions written and other built-in controls to prevent criminal history data from being accessible to any terminals other than authorized terminals. e. Computers having access to the NCIC must maintain a record of all transactions against the criminal history file in the same manner the NCIC computer logs all transactions. The NCIC identifies each specific agency entering or receiving information and maintains a record of those transactions. This transaction record must be monitored and reviewed on a regular basis to detect any possible misuse of criminal history data. f. Each State Control terminal shall build its data system around a central computer, through which each inquiry must pass for screening and verification. The configuration and operation of the center shall provide for the integrity of the data base.

2. Communications: a. Lines/channels being used to transmit criminal history information must be dedicated solely to criminal justice, i.e., there must be no terminals belonging to agencies outside the criminal justice system sharing these lines/channels. b. Physical security of the lines/channels must be protected to guard against clandestine devices being utilized to intercept or inject system traffic.

3. Terminal Devices Having Access to NCIC: a. All agencies having terminals on this system must be required to physically place these terminals in secure locations within the authorized agency. b. The agencies having terminals with access to criminal history must screen terminal operators and restrict access to the terminal to a minimum number of authorized employees. c. Copies of criminal history data obtained from terminal devices must be afforded security to prevent any unauthorized access to or use of the data. d. All remote terminals on NCIC III will maintain a *manual or automated log* of computerized criminal history inquiries with notations of individuals making requests for records for a *minimum of one year*.

Unless otherwise removed, records will be retained in files as follows:

A. Vehicle File: a. Unrecovered stolen vehicle records (including snowmobile records) which do not contain vehicle identification numbers (VIN) or *Owner-applied number (OAN)* therein, will be purged from file 90 days after date of entry. SYSTEM MANAGER AND ADDRESS:

Director, Federal Bureau of Investigation, J. Edgar Hoover Building, 10th and Pennsylvania Avenue NW., Washington, DC 20535.

NOTIFICATION PROCEDURE:

Same as the above.

RECORD ACCESS PROCEDURES:

It is noted the Attorney General has exempted this system from the access and contest procedures of the Privacy Act. However, the following alternative procedures are available to requester. The procedures by which computerized criminal history record information about an individual may be obtained by that individual are as follows:

If an individual has a criminal record supported by fingerprints and that record has been entered in the NCIC III file, criminal history record information, it is available to that individual for review, upon presentation of appropriate identification and in accordance with applicable State and Federal administrative and statutory regulations.

Appropriate identification includes being fingerprinted for the purpose of insuring that the individual is who the individual purports to be. The record on file will then be verified through comparison of fingerprints.

Procedure: 1. All requests for review must be made by the subject of the record through a law enforcement agency which has access to the NCIC III File. That agency within statutory or regulatory limits can require additional identification to assist in securing a positive identification.

2. If the cooperative law enforcement agency can make an identification with fingerprints previously taken which are on file locally and if the FBI identification number of the individual's record is available to that agency, it can make an on-line inquiry of NCIC to obtain the record on-line or, if it does not have suitable equipment to obtain an on-line response, obtain the record from Washington, DC by mail. The individual will then be afforded the opportunity to see that record.

3. Should the cooperating law enforcement agency not have the individual's fingerprints on file locally, it is necessary for that agency to relate the prints to an existing record by having the identification prints compared with those already on file in the FBI or possibly in the State's central identification agency.

CONTESTING RECORD PROCEDURES:

The Attorney General has exempted this system from the contest procedures of the Privacy Act. Under this alternative procedure described above under "Record Access Procedures," the subject of the requested record shall request the appropriate arresting agency, court, or correctional agency to initiate action necessary to correct any stated inaccuracy in subject's record or provide the information needed to make the record complete.

RECORD SOURCE CATEGORIES:

Information contained in the NCIC system is obtained from local, state, Federal and international criminal justice agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsection (c) (3) and (4), (d), (e)(1) (2), and (3), (e)(4) (G), (H), (e)(8) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a(j)(2) and (k)(3). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the **Federal Register**.
